

An Awfully Beastly Business

SAVING A SEA MONSTER

CHAPTER 3

Hello! I hope you've had a good week and enjoyed the might VE day! This week, we are moving onto chapter 3, lets see if Ulf's efforts have paid off!

Reading

- 1) What might the word floundering suggest the sea monster is doing?
- 2) Why did Orson stroke one of the Redbacks tentacles?
- 3) Give an example of where the author has explain how big the Redback really is.
- 4) Why did Ulf look at what Dr Fielding was doing nervously? Explain.
- 5) Edit one of the character's speech, to including a fronted adverbial.
- 6) What do you think Dr Fielding looks like? Draw a picture of her, and label her.

Cookery

If you were a werewolf like Ulf, what might you eat? Head into the kitchen and create a delicious meal, fit for the mightiest of werewolves!

History

Where do werewolves come from? What is their history – undertake a mini-project, what can you learn about these mystical creatures?

Science

After Ulf and Dr Field have operated on mighty Redback, they're going to need some special glue to stick the monster head back together! Can you get sciency, and re-create some glue-like cement for them to use?!

Geography

If a Redback was to live in or near Kempford, where do you think it might live? Using the geographical resources you have available (maps/internet etc...), explain with pictures and diagrams where the mighty Redback might live, if it lived locally to you!
