THIS WEEK

This week we have been thinking about different types of bears and where they live such as polar bears, black bears and panda bears. The children learnt new facts about the different types of bears such as what they eat and how long they live for. We also looked at a world map to show which countries the different bears are located. Next week will be our last week on our Book Hook 'Goldilocks and the 3 bears' and we will be retelling the story by drawing our own story maps.

Forest Church

Rev Kim came to school to do some outdoor learning with us. The children made a colourful autumn rainbow using different coloured leaves. She also talked about sycamore seeds and how they float and twirl around once they have fallen from the tree and then regrow in the ground.
