

## Joe Dickens Gov Profile

I began working as a Governor at Kempford last year to try and help to support the School in developing our school on its journey upwards. I am responsible for safeguarding in my role as a Parent governor.

I have worked as a Teacher for 8 years and mainly specialise in the SEN sector but originally trained a Physical Education Teacher.

I look forward to working with the children and families of Kempford to create a strong sense of community and positive culture around the School.
