

**Class book: Billionaire boy**  
Class 2 Term 4 2020/21  
Spring Term 2021

**Key Areas of Learning**

For the rest of this term we will be continuing with our maths and literacy journeys, supporting children in these areas. For our afternoon sessions, there will be more focus on supporting the children's return to school through group and cooperative work, circle time, and overall emotional support.

As young **athletes** the children will be focusing on gymnastics with Mrs Ballard. They will be working together, supporting each other, and developing their strength, balance, and coordination.

As **Geographers** the children will be working together to explore natural geographic features. Together we will undertake practical investigations.

We will be finishing the term celebrating Easter, with a host of fun Easter activities.

**ENGLISH**

In English we will continue to focus on poetry, exploring a variety of different styles of poetry, and being creative in writing our own poems.

We will then be moving onto story writing again, using our class book 'Billionaire boy' as our focus.

We will also be using our class book for our daily guided reading.

**MATHEMATICS**

In Maths this term we will be focusing on the following areas:

**Year 3**

- Multiplication and division
- Measuring money
- Adding and subtracting money

**Year 4**

- Division using written methods.
- Identifying and comparing angles.

**Geography**

Physical geography: We will be looking at settlements and land use, through practical sessions the children will understand how river, volcanoes, earthquakes and other physical features come to be.

**PE**

The children will be focusing on shared physical games to help them develop cooperative skills, and will be working with Mrs Ballard to improve their fitness and balance in gymnastics

**RE**

We will be taking part in an RE art competition, and the children will be learning about Easter traditions, and why Christians celebrate Easter. We will also be having some Easter fun during the last week of term.

**PSHE**

For PSHE the children will be spending lots of time-sharing in circle discussion, working together, and considering what makes a good friend. This is especially important as the children have had such a prolonged period of time away from school.

**Learning skills**

**As enterprising pupils we will:**

Continue to learn how to work well together in groups, to use our individual strengths to support each other while creating excellent pieces of work. Working collaboratively will teach the children about themselves and about each other, and will be an important skill they can carry forwards.

**Cultural Capital**

**As pupils concerned with our environment we will:**

Look at how we use our natural lands and how together we can keep them natural. We will also be exploring Easter and Easter traditions at the end of term.

**Values and SMSC**

**To develop our spiritual, moral, social and cultural awareness as pupils we will:**

To continue to learn about each other through group discussions, art, and drama. Through these activities children will learn more each other's interests, views, and beliefs.

**Community**

**As members of our school community we will:**

Come together to work cooperatively as a team. We will be developing teamwork skills and concentrating on the importance of friendship and positive relationships.
